Started standing in front of the decks sometime around 2016 in Vilnius club "Cechas48". His selections consist mostly of broken amen sounds accompanying by hard, punchy kicks and occasional donk bassline or widely known Pop remix. However, on special occasions this artist also performs Acid Tekno or Gabber-themed mixes which draw a lot of hype, be sure not to miss them! Mostly performed in the clubs of Vilnius, such as "Pel?da", "48 Cechas", "Fabrikas", "Utopia" and many private free-parties & a bunch of festivals, he's one of the most prominent Breakcore djs in Lithuania. The artist also visited various other cities in Lithuania for his performances and also stumbled upon Warsaw's free-party scene, where he performed in Summer 2020. The same year Alkocore started producing his own tracks with the help of FL-Studio, handy samplers and old-school synthesisers. Most of the tracks and mixes made by Alkocore are available on his Soundcloud profile.
