Long-time Lithuanian Tekno legend born and raised in Lithuania. Rather young, started playing for a public audience in 2014 under the stage-name Distrakt0r with a selection of DnB and Rough Jungle. Since 2016 performing as Ketateka, the same year his first release came under the STOMP! SOUNDS label titled Bubulz in an Album RAVE RIDDIMS 001. 2017 was marked with yet another release an ep titled 6b657461736e6975. While the year was rough for the Lithuanian underground, with clubs being raided and sound-systems taken down by police forces, the ep was definitely a success in its own field. Year 2019 came with a self-released album Volume 23 - something for the free tekno lovers worldwide. In year 2020 he started amassing a huge vinyl collection and took interest into Deep DnB and Jungle Drumfunk, these styles he continues to play under the nickname Ketamini. Most of the performances Ketateka made took place in Clubs "Pel?da", "Cechas48" & "Que Pasa", all located in Vilnius, where he was one of the resident DJs. What's more, he's visited most of the bigger cities in Lithuania and got some performances abroad as well - on tours he visited Italy & Estonia. During his DJ career he got himself into managing free-party themed evenings in various places and finally decided to join two teams - the mighty Disturbed Sound System and us, Small Town Underground. He also gives a shoutout to the Bassment Crew from Ignalina as close and likeminded friends with whom great parties were organised & Vainius Mashalaksh, with whom he has formed a tekno-heads duo "Trumpas Sujungimas".
