Lucky Clover is a Vilnius based underground DJ. Started as a street dancers' DJ, but soon made a move onto harder styles after discovering them. His most favourite styles are Drum'n'Bass and Tekno. What's more, he is one of the founders of the Substance team, Lithuanian DnB event-makers with variety of well known events and festivals all across the country. Could be named as one of the residents of Vilnius club "Cechas48", been performing there since 2016 till this very day. Joined the team "Small Town Underground" sometime in 2018 and performed in dozens of rave events hosted by the team. His selections are mostly made of freshly released happy-themed tracks coupled with punchy Hardtek kicks when he's in a mood for partying and deep basslines of Drum & Bass when he's aiming for a more relaxed atmosphere. He's widely known in Vilnius rave scene and has a unique mixing technique which he couples with a great dance-off selection for ultimate satisfaction formula.
