He has been playing in public since 2016, started with hard-techno & experimented with different genres over time until he found-out about Tekno and Hardtek. After a while, he joined the Small Town Underground team in sometime around 2018 and after that - the Disturbed Sound System. What's more, he also played in plenty of events & organized a number of them as well. He also performed in festival "Sintez?", Ravers Against Winter, Wintertek and many other famous Lithuanian rave events and Vilnius raves. He also mentions that through his career as a DJ he was playing in the same Line-Up with such rave-scene stars as Hardtrax, Jackhamma, Suburbass, Maissouille, Mandidextrous and many other famous artists. Last but not least he's also self-released some quite banging tunes on his soundcloud account, be sure to check them!
